The organiser has both the right and duty to adapt his organiser points prior to the tournament, if necessary.

Example: *If the organiser gets 45 organisation points, also because he planned to have artificial lighting during matches played at night, but has failed to provide it, he has to reduce the organiser points, awarded to the winning teams, from 45 to 40 points.*

1.3. Protests

Beach Handball shall be played in the spirit of Fair Play. Organisers and teams managers are requested to help each other to find the correct number of points. 2. Teams

Preamble:

What is a team? A team is a selection of players, playing under the same brand. The brand is the e-mail address, which is managed by the team-manager. This person may compete with his team and several players in different tournaments.

Rule: Each team manager is allowed to send only one team per gender (max. one Men's team and one Women's team) to one tournament.

Rule: There is no limitation of the number of players. They do not need to have the citizenship of this country. The EHF asks the team managers to obey to this rule in the spirit of Fair Play. Every player shall play during one tournament only for one team. In the spirit of Fair Play, the managers of the teams shall control this rule.

A registered EBT team is not allowed to completely change its name during the running EBT season (name extensions e.g. "origin team name + sponsor" is possible). The official EBT team name has to be clearly communicated to the organiser to allow a correct ranking. A published ranking can not be changed due to change of team names during or after the season.

One club can only take part in one tournament at a given time.

Please pay attention to the players' insurance. Each team is responsible for their insurance. The EHF and the National Handball Federations shall not be held liable for any costs, loss or otherwise damages suffered by the players or the club due to injuries prior, during and after the tournament.

2.1. Placement points: The principle is to award 50% of the participants with points.

The first 10th ranked teams, which compete in an EHF approved tournament, gain points for their sporting success. The last team of the top half gains 10 points, the second last of the top half 20, the third last of the top half 30 and so on.

Example: *If a tournament has 18 participating teams, the 9th ranked team gains 10 points, the 8th ranked gains 20 points, etc, the second team gains 80 points and the winner gains 90 points.*

The observer therefore has to check the given criteria carefully and change the criteria if necessary via the EBT website. Furthermore he has to enter the complete tournament ranking. The criteria check and ranking has to be provided 3 days after the tournament at the latest.

It is the task of the EBT Observer to check the criteria and enter the ranking carefully and in time and to report any disciplinary cases!

The organiser is obliged to provide the EBT Observer with any information needed in order to prove the given criteria. Furthermore the organiser has to provide the complete ranking to the EBT Observer. Any violation of these tasks of the organiser shall be reported and might lead to a ban for the tournament organiser.

The EBT Observer is not allowed to be involved in the tournament as organiser, referee or player. The observer has to be present from the 1st to the last tournament day.

4. Final tournament

Teams qualify by good performance (the best 3 results) in the EHF approved final tournament of the European Beach Tour. This final tournament will take place as the opening of the following European Beach Tour.

The EHF determines the organiser of the final tournament. He is supposed to be the best organiser of the beach season, which means the organiser with the maximum of organiser points.

The results of the Tour and the organiser for the final are fixed in beginning of October, so all qualified teams and the organiser have enough time to prepare for the final, which will take place almost 8 months later. The EHF nominates the participating teams for the final tournament according to the ranking list with priority given to one team per nation.

All teams, which qualified for the final, will have to pay a participation fee in order to assure their participation in the final tournament. The minimum prize money for all participating teams at the final will be the participation fee. This means that every participant will be reimbursed his participation fee.

The points 1.3, 1.4. and 2.2 remain valid for the final tournament.

EHF cups will award the places 1 – 3 of each category!
